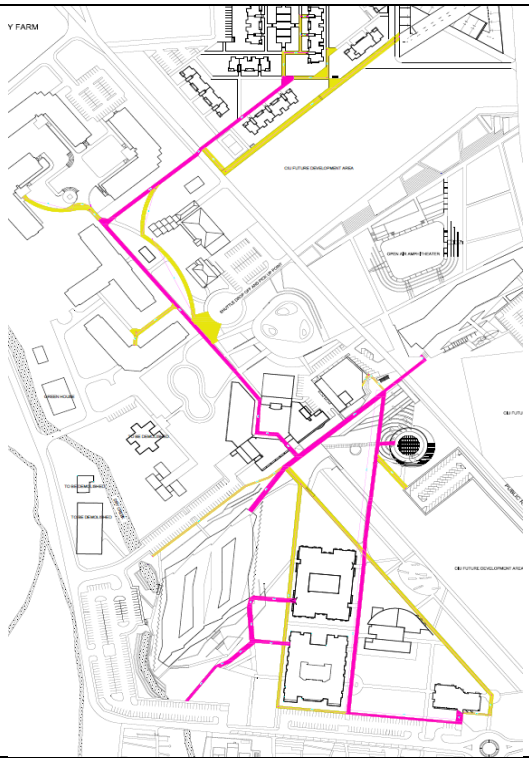
5. Disable people Access

6. Pedestrian Access



7. Tactile Paving Project

8. 12 Buses include disabled friendly locations

9. Baby Changing Stations

Description:

1. Disability parking for disabled people to park their car which is located at the nearest space to the building. (This facility is accessible in all parking areas on campus)

2. Accessible toilets for disabled people. (This facility is available in all buildings on campus)

3. All the buildings are equipped with elevators for disabled people.

4. Braille for the visually impaired is located around the campus so they can easily find their way around. (This facility is available in all buildings on campus)

5. Buildings and facilities have access to pathways and ramps for wheelchair and disabled access

6. The pedestrian bridge was completed in 2020 by CIU. It creates a safe and easy path over the highway, for the students and staff between the campus and a small residential location (Haspolat Village) near the campus.

7. Due to the new regulation that was based on the increasing number of visually impaired students in CIU, the project shown above (7. Tactile Paving Project) is designed with the sustainable campus team to create a standard environment for anyone with visual impairments.

8. 12 Buses include disabled friendly locations.

9. Baby Changing stations available in disabled toilets for space requirements.
