### Collaborations on Developing Best Practices for Tackling the SDGs

Cyprus International University works closely with listing institutions by international bodies to achieve its sustainability goals.

One of the examples is the UI GreenMetric, an initiative of the University of Indonesia developed in 2010. This initiative aims to provide the result of an online survey regarding the current condition and policies related to Green Campuses and Sustainability in Universities worldwide. It is expected that by drawing the attention of university leaders and stakeholders, more attention will be given to combating global climate change, energy and water conservation, waste recycling, and green transportation. Such activities will require a modification of behavior and providing more attention to the sustainability of the environment and economic and social problems related to sustainability.

By developing and adopting best practices in achieving SDGs, CIU gradually increased its rank as the 71st sustainable campus out of 1050 institutions in 2022.

### Detail Rankings 2022 - Cyprus International University

Rank 2022	Country	Total Score	Setting & Infrastructure	Energy & Climate Change	Waste	Water	Transportation	Education & Research	Website
71	Turkiye	8350	1250	1575	1425	1000	1450	1650	

Note: Global ranking of the CIU according to UI Greenmetrics.
