[17.4.3]

### Outreach Educational Activities for the Community

Cyprus International University is dedicated to educating the broader community about SDG-related aspects. The university offered many free sustainability-related educational opportunities for the local community. Some of which can be seen in the posters below.

Furthermore, some of these events were held via Zoom online meetings and shared with our alums using our alum portal (<https://www.ciu.edu.tr/en/alumni>) for those who have graduated from our university and are interested in sustainability-related issues and concepts.

Some of the notable events organized can be listed and seen below:
